

A Strategic Framework for Powys' Health & Care Workforce

We engaged with over 300 people from our workforce to help shape the strategic framework. Five core themes and a cross-cutting theme emerged from this.

Powys' health and care system has set out an exciting strategy for the future of its workforce. It focuses on high quality, person-centred care with greater partnership working and citizenship.

Workforce is the single most important factor in the quality of care we deliver and is therefore integral to achieving what is set out in Powys' Health and Care Strategy.
